

# HENNEPIN COUNTY SHERIFF

What are some other options that HCSO is considering to assist with call/data sharing?

HCSO will be working with the UAB to discuss possible solutions. Some of these options are:

- Automatic web based or social media technology platform. With some solutions, it is possible for our data to go out in a reasonably delayed manner and also withhold specific call types (Criminal Sexual Conduct, Mental Health, Domestic Related, etc.). This platform would also allow us to withhold the specific address and provide only the block range protecting the victim/caller's information.
- We already record all of our radio audio. We are looking at system upgrades or other programs that would allow us to delay the release of radio audio and also redact sensitive data.
