To clarify:

- The City is still seeking reimbursement from the Trump Campaign, and is negotiating? Requesting? And who in City Hall is negotiating that?
- If there is correspondence to this effect why didn't it show up with my Data Practices Request?
- If it's venue related expenses does that included Minneapolis Police security outside the venue, port-a-potties, or other expenses? Is that cost still placed at \$530K or has it changed? What precisely are we asking to be reimbursed?

This is all very much a matter of record.

Lyden

Tom:

All I can share at this stage is that nothing has concluded yet and the City is still in discussions. The City does expect reimbursement of venue-related expenses.

Greta,

I sent this email below to Casper last night and I haven't heard back. Wondering what happened in the final analysis with the Trump Rally last October at Target Center. We received 2,500 pages through a DP request but it didn't answer our basic questions:

- Did the City recoup any of its incurred expenses for the rally?
- Is the City still trying to recoup those expenses from the Trump Campaign?
- Is the City contemplating any revision with its contract with Target Center and AEG?
- Have there been any subsequent agreements or understandings?
