Hey Mike,

Thanks for following up. Nothing's changed since the data production you mentioned from some time back and the decisions that were communicated in those records.

Best,
Jake

Some time back, we made a data request to the U regarding its relationship with Huawei, the Chinese telecommunications company.

We received the data, and saw that the U "suspended" further engagement with Huawei in February 2019 following federal indictments against the firm.

Was just circling back to see what the current status is at the U regarding Huawei.

Thanks.
