

Standouts/Highlights: (Interactions, activities, successes, or highlights that come to mind upon reflecting on the shift). Having the people from around the neighborhood stop by and say thank you to the team for opening the streets.

Frustrations/Challenges: (Things that happened on shift that frustrated the team, were challenging in a negative way, or got in the way of the team performing to the best of its ability).

The team was met with garbage/junk (old refrigerators, microwaves, couches, chairs etc.) being dropped off to block off intersections from people who did not live in the nearby neighborhoods.

Having media/journalists not cooperate in listening to team workers ask them to move for their safety. Had to de-escalate altercation between protestors and journalists on a few occasions during the week.

Adjustments Needed: (Looking ahead, what improvements or changes should be considered to improve the coordination and efficiency of the team, Outreach Worker performance, or overall outreach quality)?

The team suggested having traffic workers placed at each intersection moving forward

Other: (Add other notes as needed).
