

buses to dispatch law enforcement if needed. Buses and stations alike are equipped with cameras, lighting, alarms and other safety and security features.

Those of us who have worked on this project for many years welcome feedback. But let's be sure that we're all working from actual, documented facts. If you have questions, ask them, rather than just accepting the half-truths and falsehoods often spread through social media.

Ultimately, I believe that once the Purple Line meets the rigorous Federal Transit Administration requirements and is operational, it will be an important part of bringing White Bear Lake and our region closer together, strengthening our community for years to come. Your continued input is welcome as we work to make the Purple Line a successful transportation option for our region.
